## **RIDE EDUCATION**

**Our Freedom Ride turned out very well.**

**I was impressed with the ride. The  
groups were very professional as the  
groups staggered and spacing. The yearly  
training keeps levels high and enjoyable.  
We had four people attend Rider Ed  
school this summer. Also nine refreshers  
CPR & ACD in March. Next year we will  
try a first aid, CPR & ACD. Maybe more  
of us can do the ERC next year. Safe  
riding makes for fun riding and schooling  
keeps us sharp. Fall riding makes for fun  
riding, schooling keeps us sharp. Wear  
warm clothing. Watch for falling leaves  
on wet roads. Before starting a ride  
check the tire pressure, oil and gas.**

**Enjoy riding while it lasts.**

**Jim and I are taking it one day at a time.  
He has been diagnosed with Parkinson's.  
He has some good day and not so good.  
On good days we get out of the house to  
have lunch etc.**

**I would like to thank Fred Thomas for  
coming to stay with Jim so I could go  
bowling. It was very special to get out for  
awhile. Love to all, Lucille & Jim Rowe**
