FROM Keith and Kathy - YOUR CHAPTER DIRECTORS

With this being my first article I would like to say thank you to every member for their support. We hope to have fun on rides and gatherings alike with each and every one of you. The last couple months have been a whirlwind of information and new experiences for us.

We have had two outings this past month: Grand Traverse Pie Company for dinner and Yogurt town. Both were fun but Grand Traverse Pie will stick out for me as I donated to the Taylor PD that night on the way to Leon's.

Kathy and I would like to say if you feel we are not doing what you feel is right as it relates to the best interest of group don't hesitate to let us know. This group is for everyone and we all have a voice. In closing, everyone have a blessed and safe holiday season and let's pray for a short winter season.

that she's right.**

or wrong?**

JUST HOW COLD IS COLD?

Now that winter is here we will be dressing for colder weather whenever we go out. But do we really know just how cold it is outside? Sure we know the temperature but what about the added wind factor? The chart below shows that as the temps get lower even a mild wind can make the effective temperature dangerous if you are outside for an extended period of time. Be sure to dress accordingly when you are out clearing away that white stuff from the driveway or sidewalk.

Also keep in mind on that 'nice warm day' when you decide that you just 'have to go for a ride' that 50 MPH at 40 degrees creates a wind chill (effective temp) of only 26 degrees!

For What It's Worth

I find it ironic that the colors red, white, and blue stand for freedom until they are flashing behind you.

If I had a dollar for every girl that found me unattractive, they would eventually find me attractive.

Just read that 4,153,237 people got married last year, not to cause any trouble but shouldn't that be an even number?

Today a man knocked on my door and asked for a small donation towards the local swimming pool. I gave him a glass of water.

Did you know that dolphins are so smart that within a few weeks of captivity, they can train people to stand on the very edge of the pool and throw them fish?

I want to die peacefully in my sleep, like my grandfather.. Not screaming and yelling like the passengers in his car.

It doesn't matter how big and bad you are, when a two year old hands you a toy phone you answer it.
